NOVEMBER

Huntsville, Ala.

1910

FOR THE TRADE ONLY

NOV 12 1910
Bureau of Plant Industry
U.S. DEPT. OF AGRICULTURE
Office of Assistant Chief

Special Mention.

ROSES. We are making a specialty of growing Hardy Hybrid Perpetuals and Mosses by budding for outdoor planting. Budded roses transplant with better success than roses on their own roots and produce finer blossoms. The stocks upon which we bud are all disbudded before planting, so that little trouble is experienced from suckers. It will be noticed that our assortment given on page six covers all shades of color from white to the darkest crimson. We have discontinued growing roses at Biloxi, Miss., as we find we can produce a much healthier, handsomer plant at Huntsville. Our present crop is grown at Huntsville, and we guarantee as fine plants, both roots and tops, as can be produced anywhere in the United States. Samples will be sent upon application.

APEX. Ripens at the same time as Alexander, than which it is far superior in size, color and flavor. Size large, color of skin yellow, with a mottled red cheek. Flesh yellow and of good quality—one of the best early market varieties. It fruited with us this year, ripening two or three days later than Arp Beauty. Freestone, but, like all other extra early peaches, the flesh clings to the stone.

DR. BURTON. Very similar to Mamie Ross in vigor, certainty and abundance of bearing; has large flowers. Much superior to Mamie Ross and ripens about one week earlier. It is a perfect freestone, of rather larger size than Mamie Ross, of same shape, with smaller seed, much firmer and more color, and quality of the finest; the best and handsomest peach of its season.

MUNSON'S CLING. A selected seedling of Elberta, among hundreds grown from select seed. Equally as large as Elberta, more spherical, with a short beak. Firm, yellow flesh of the finest quality. Surface mostly covered with bright red, very handsome. An immensely superior quality to Chilow. Ripens with Elberta.

MUNSON'S FREE. Selected variety among several hundred Elberta seedlings grown from selected seed. The fruit is larger than Elberta; more highly colored, more oblong and of better quality; flesh yellow. More prolific and hardy in bearing. Ripens about a week later than Elberta. Very firm; fine for shipping.

REX. A seedling of Elberta, ripening about a month later. The variety in size, color of skin and flesh is very much like Elberta.

OCTOBEL (Bell's October). Large, rich, yellow, red cheek; freestone; of finest quality.

We recommend the following varieties as a splendid assortment of varieties for a succession in both the commercial and home orchard. They are named in the order of ripening and cover the season from the middle of May to the middle of October: Mayflower, Arp Beauty, Apex, Greensboro, Dr. Burton, Mamie Ross, Carman, Hiley, Goldfinch, Champion, Belle of Ga., Elberta, Munson Free, Tiebout, Old Mixon Free, Lemon Cling, Crawford's Late, Beer's Smock, Rex, Fox Seedling, Krummel's Late, Salway, Dulce, Henrietta, Octobel, Stinson's.

FALL OF 1910 AND SPRING OF 1911.

HEIKES HUNTSVILLE TREES.

NOVEMBER, 1910.

Except where prices are agreed upon these quotations are subject to change without notice.

The usual Terms and Conditions govern these quotations.

Combination Car Lots.

Prices will be based on delivery to station at Huntsville, the price of boxes to be added. In car lots in bulk no charge will be made for packing.

To those who order in less than car lots and wish to take advantage of our plan to deliver to Distributing Points we must add to the prices quoted in this list the cost of freight from Huntsville to these points on a car lot basis, and we will then prepay the freight to the point of distribution. This plan insures low freight rates and quick time. Such orders will be packed in boxes at Huntsville and combined to make up car lots and shipment promptly made to distributing points and forwarded from there over the various railroads to destination. Car lot orders will go direct from Huntsville to destination, and can be shipped at any time after September 20th to March 15th, except a short time in mid-winter.

Distributing Points.

We are making St. Louis, Mo., Rochester, N. Y., Philadelphia, Pa., Tyler, Texas, Toppenish, Wash., N. Yakima, Wash., Portland, Ore., Grand Junction, Colo., and Salt Lake City, Utah, distributing points for orders in less than car lots, to be shipped from Huntsville on the dates named below. No charge for drayage or transfer at these points.

FOR ST. LOUIS—Early shipments from September 20th to October 10th; late shipments from October 25th to December 10th, and in Spring.

FOR PHILADELPHIA AND ROCHESTER—November 1st and in Spring.

FOR TYLER, TEXAS—October 10th to December 15th.

FOR PORTLAND, ORE.—November 1st to December 15th.

FOR TOPPENISH, WASH.—November 1st to December 15th.

FOR NORTH YAKIMA, WASH.—November 1st to December 15th.

FOR GRAND JUNCTION, COL.—October 15th to December 1st and in Spring.

FOR SALT LAKE CITY, UTAH—November 1st to December 15th.

This offer to ship to distributing points will not apply if shipment is required at other than the above named dates. It sometimes happens that we cannot arrange to make up combination car lots to suit all strictly within the dates named. It will be necessary to arrange the dates for shipments as orders are received.

For 100 rates add 1 cent each; for 10 rates add 2½ cents each to the 100 rates.

PECAN SEEDLINGS. Gulf Coast Thin Shell.

We have a very fine lot of two and three-year old seedlings grown at Huntsville. These trees are grown from selected nuts collected along the Gulf Coast in Southern Mississippi and Louisiana, where the choicest thin shell nuts are produced. We can supply any size from one foot upward to five feet.

ROSES==Field Grown. Budded.

We have ceased to grow Roses at Biloxi, as we find we can produce a much stronger, healthier plant at Huntsville. Those grown here, both root and top, are as fine as can be grown anywhere. We have a large stock this year and are making prices low to help introduce the Huntsville grown.

BUDED ROSES—We have ceased the propagation of Roses on own roots.

The No. 1 plants will have three or more branches and will be cut back to 18 to 24 inches. The roots are very fine. We make a grade of Roses called No. 1½. This grade is made up of plants just under No. 1, such as do not have the required number of branches or slightly under weight and height, and make a very nice grade for mailing.

The plants under No. 1½ we class as No. 2. We recommend them for transplanting.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filed at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignees. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss or "Shingle Tow," and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.
